

Finding our place in the sun with GROW_i

No matter how full the river is, it still wants to grow.

~ Congolese Proverb

Friday, June 3, 2022, was a day for which CivSource Africa and the Mopane' Leadership Department will be eternally grateful. Friends, partners, and well-wishers of CivSource Africa, the GROW_i Mentorship and Coaching Program graduated 25 leaders after a year of intensive learning and sharing. Special thanks go to the leaders who entrusted their leadership development to us through the GROW_i program, the facilitators who handled the program's five learning modules, and the coaches who walked growth journeys with the Growers. Thank you to our implementing partners, the International Coaching Federation of Uganda (ICF-U) and Imprint, for agreeing to join us on this journey. We will be eternally grateful.

The wonderful and colorful evening was hosted by Ms. Jacqueline Asiimwe, CEO of CivSource Africa, and included all of the program's leaders, coaches, and facilitators, as well as our beloved guest speakers, Ms. Dorothy Kisaka, Chief Executive Director of Kampala City Authority, and Ms. Daniele H. Nyirandutiye, Deputy Mission Director USAID, who emphasized the importance of continuous learning and mentorship for the Growers because a leader is The continuous learning of a leader to better themselves becomes critical to the strategic growth of their institution and those they lead.
